Professional Summary

Information Technology graduate with hands-on experience in web development, frontend engineering, and enterprise system enhancement through internship, freelance, and academic projects. Proficient in JavaScript, React, and modern web technologies, with experience improving business workflows and building responsive web applications.

Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript, C#, PHP, MySQL

Tools: React, Vite, Klaviyo, Replo, Shopify, Flutter, Unity, Blender, Figma, Git

Experience

Shopify E-commerce Client — *Freelance Web Developer*

Remote | November 2025 – February 2026

- Developed responsive Klaviyo email templates for e-commerce marketing campaigns
- Implemented dynamic email content using Liquid variables
- Built Shopify landing pages using Replo page builder
- Improved user experience through mobile-responsive design and structured UI layouts

St. Martin Cooperative — *IT Intern (Programmer)*

On-site | March 2025 – July 2025

- Enhanced the Service Request Form (SRF) System by implementing new features and improving existing functionality.
- Modified system settings, service request forms, and user interface components to improve usability.
- Implemented and refined a hierarchical approval workflow.
- Collaborated with the IT team to troubleshoot issues, test system updates, and support internal users.

Projects

Lost and Found WebApp — *Team Leader, Full-Stack Developer | 2025*

- Led a 3-member team in developing a service-based web application
- Designed scalable system architecture and implemented role-based workflows for item tracking

Pre-advising System — *UI/UX Designer, Frontend Developer | 2025*

- Designed a web interface for students to view and manage subjects by course, year, and semester
- Focused on intuitive navigation and clear information structure

E-Commerce Website — *Project Leader, Frontend Developer | 2024*

- Led frontend development of an eyewear e-commerce website
- Implemented responsive product displays and variant selection features

Augmented Reality Project — *3D Designer, Full-Stack Developer | 2024*

- Developed an AR mobile application using ARCore and C#
- Integrated AR features to create an interactive learning experience

DaMath Educational Game — *3D Designer | 2024*

- Modeled interactive 3D chessboard and game assets using Blender

Certifications

- Networking Basics — **Cisco | 2024**
- Introduction to Cybersecurity — **Cisco | 2023**
- Fundamentals of Predictive Project Management — **PMI | 2023**
- Microsoft Office Excel Associate — **Microsoft | 2023**

Education

Dr. Yanga's Colleges Inc.

Bachelor of Science in Information Technology (2021 – 2025)
